NARRATION AT C

Submitted for your approval, one Mr. Miller who is about to take a trip into oddness and obsolescence through a zone whose boundaries are that of imagination. Accompanying him on this journey is the mesmerizing sound of the Twilight Tone.

Guitar solos for 15 bars on first D.C. 3rd vocal verse on second D.C.
As played on The Manhattan Transfer's LP "Extensions"

THIRD VERSE

On a cold and rainy night
One Mr. Miller had a rare flight
Glenn was up there boppin' a rhythm
Then the engine stopped to listen with him
Play that beat, oh, oh,
Suddenly he heard this sound,
This melody that keeps spinning round and round
Now he resides and plays trombone
In the mystic unknown zone.
